ARSHA PANICKER

Kochi, IN 682042

+91 7974737208 arshapanicker5622@gmail.com

Innovative ReactJs developer with experience in designing responsive, user-friendly web applications with optimizing application performance. Having expertise in front-end development using HTML5, CSS3, JavaScript, and state management with Redux. Seeking a good position to utilize my skills and abilities towards the growth of the organization through continuous learning and professional growth while being resourceful, innovative, and flexible.

Skills

- React JS
- JavaScript
- React Hooks, Context API, Redux
- SDK Integration
- JWT, OAuth, SAML
- HTML5 & CSS3
- CSS Frameworks & Libraries(Bootstrap, Material-UI)
- Development Tools
- RESTful APIs, Fetch API
- Version Control (GitLab, GitHub)

Work History

System Engineer - React FrontEnd Developer

Tata Consultancy Services, Kochi, India *February 2024 - Current*

- **Developed and optimized a dynamic web application** for healthcare professionals, pharmacists, and consumers to **search, browse, and purchase** pharmaceutical products efficiently.
- **Built an intuitive asset management system** enabling users to **upload, preview, and share** various file types (PDF, DOCX, PPTX, MP4, JPEG, PNG) while ensuring smooth rendering and fast loading times.
- **Implemented React hooks (useState, useEffect, useContext, useMemo, useCallback)** to manage component state effectively and optimize performance, reducing unnecessary re-renders.
- **Designed and developed a fully responsive UI** using **CSS Flexbox and Grid** ensuring seamless accessibility across desktops, tablets, and mobile devices.
- **Enhanced user engagement** providing admins with **real-time insights** on product interactions and asset downloads.
- **Developed a custom SDK Package** from an existing application to enable **seamless integration** by external applications.
- **Optimized application performance** by:
  Lazy loading and code splitting (React Suspense, React.lazy) to **reduce initial page load time**.
  Memoization techniques (useMemo, useCallback) to prevent unnecessary re-renders in high-traffic components.
- **Integrated RESTful APIs** efficiently to fetch **real-time product availability and content updates** while reducing response times.

- **Implemented role-based access control (RBAC)** for Admins, Pharmacists, and Consumers, ensuring secure access to various platform features.
- **Collaborated with UX designers and backend teams** to refine workflows, **improve accessibility** , and create an intuitive and engaging browsing experience.

Assistant System Engineer - React FrontEnd

Tata Consultancy Services, Kochi, India *February 2023 - February 2024*

- **Designed and developed responsive web pages** using **JavaScript, HTML, CSS, Bootstrap, and Material-UI**, ensuring a consistent user experience across different screen sizes.
- **Developed and maintained reusable React components,** improving **code modularity** and **reducing development time** for future enhancements.
- **Integrated RESTful APIs to fetch and update data,** ensuring seamless communication between the front end and backend while optimizing API calls using **debouncing and caching techniques**.
- **Enhanced authentication by integrating login functionality** ensuring secure user access.
- Integrated **Material-UI components** for a modern and accessible interface.
- **Managed version control using Git and collaborated with teams via GitHub/GitLab,** ensuring smooth development workflows.
- **Provided production support,** troubleshooting and fixing critical issues post-deployment to ensure system stability.
- **Actively participated in Agile ceremonies,** including **sprint planning, daily stand-ups, and retrospectives,** contributing to continuous improvement and team collaboration.

Assistant System Engineer Trainee - ReactJS

Tata Consultancy Services, Kochi, India *February 2022 - February 2023*

- **Developed and styled responsive web pages** using **HTML, CSS, JavaScript, Bootstrap, and Material-UI**, ensuring cross-browser compatibility and mobile responsiveness.
- **Implemented reusable UI components in React.js,** improving consistency and reducing redundant code.
- **Enhanced user experience by applying CSS animations, transitions, and interactive elements,** making the application visually engaging.
- **Worked with API integration to display dynamic content,** ensuring smooth data fetching and rendering in React components.
- **Assisted in debugging and resolving front-end issues,** improving application stability and UI responsiveness.
- **Collaborated with senior developers** to learn best coding practices, optimizing performance through techniques like lazy loading and efficient state management.
- **Followed Agile methodologies,** participating in daily stand-up meetings and sprint planning sessions.

Education

RVS COLLEGE OF ENGINEERING AND TECHNOLOGY at COIMBATORE

B. TECH in ELECTRONICS AND COMMUNICATION ENGINEERING July 2021

CGPA: 8.95

DAV PUBLIC SCHOOL at MADHYA PRADESH

XI - XII in PCM June 2017 , Percentage: 76.4%

Project and Achievements

- Successfully **Designed and Delivered reusable SDK package,** enabling multiple external applications to integrate Core features with minimal effort.
- Enabled external user access through **Secure deeplinks without log in.**
- **Engineered a globally accessible web application**, allowing users to access content **from any location in their preferred local language**, enhancing engagement and usability.
- **Implemented role-based access control**, ensuring that **users with specific roles can only view content relevant to their role**, improving security and personalization.
- **Optimized application performance**, reducing page load time by **30%** through **lazy loading, code splitting, and efficient state management**.
- **Achieved 100% mobile compatibility**, leveraging **Material-UI, Bootstrap** for a fully responsive UI.

Accomplishments

- On The Spot Award for Development
- Best Team Award
- Many Client appreciation Mails for the good work.
